St Lawrence CE Primary School

Love, Compassion and Respect

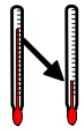
Science – Year 1 – Seasons – Autumn 2

Vocabulary:

seasons – one of the four parts of the year; they are called Autumn, Winter, Spring and Summer.

Autumn - a season where temperatures drop: September, October and November

cold - it has a very low temperature; you feel like you want to put more clothes on.



overcast - the sky is completely covered with clouds

harvest- picking or collecting the food that has grown on a farm

animals get ready to **hibernate** - a long, deep sleep in the winter
